## Technical Skills

---

**Languages:** C#, CSS, HTML, JavaScript, Python, Ruby, SQL **Frameworks/Libraries:** ASP.NET, APIs, Bcrypt, Bootstrap, Entity Framework Core, Express, Flask, Jinja2, Mongoose, Node, React, Ruby on Rails **Databases:** MongoDB, MySQL **Tools:** AWS (EC2), Github, Visual Studio Code **Additional Skills:** Encompass, TotalExpert, Velocity, CXone, LoanBeam, LenderX

## Technical Projects

---

**Read To Me** | Full Stack Developer | [Github](#) | *A reading fluency website for school-aged children to record video and audio of themselves reading text passages to increase their reading fluency, built using Python, Flask, MySQL, & APIs.*

- Implemented MediaCapture API, MediaRecorder API, and Streams API for video and audio recording and playback.
- Designed database using MySQL to ensure only registered and logged in users have access to recording features.
- Conceptualized project using Trello and followed the Agile Development Process to create an MVP to go live with.
- Researched WCAG 2.0 accessibility standards to assist struggling readers in easily navigating the user interface.

**TickIt Bug Tracker** | Full Stack Developer | [Github](#) | *Software bug tracker, built using C#, ASP.NET, & MySQL*

- Utilized Bootstrap and custom CSS to create an intuitive and minimalist user-interface and landing page.
- Established database using MYSQL and made back-end calls using LINQ to query the database and display tickets associated with all users, currently logged-in user, and assign new users to unassigned tickets.
- Implemented validations to verify ticket information can only be edited or deleted by the user who created the ticket.

## Professional Experience

---

**Guaranteed Rate** | *Mortgage Sales Trainer & Mortgage Specialist: NMLS 1654182* | Aug 2019 - Sept 2022

- Received an average of 12-15 new prospective applicants daily across 9 states and 4 time zones while project managing an average active personal pipeline of 20 loans or \$7M and closing an average of \$2M per month.
- Onboarded 100+ loan officers with 90 -120 days of individualized, daily technical training which increased the division's speed to loan closing and reduced the average errors in an application upon submission from 40 to 4.
- Researched, designed, and presented over 100 synchronous, remote trainings for 35-150 person sales teams using adult learning theory best practices and methodologies to increase loan officer KPIs and overall sales team retention.

**Valley Bank** | *Mortgage Sales Assistant* | Jul 2017 - Aug 2019

- Technical support to over 14 loan officers and 4 sales assistants which resulted in over \$70M of monthly production.
- Project managed an average active pipeline of \$5M and origination of over \$25M annually while promoting CRA initiatives and cross-selling banking products including personal and commercial to increase customer retention.
- Deployed targeted email and social media campaigns to increase visibility which resulted in new referral business.

**River of Life Assembly of God** | *Ministry Coordinator* | May 2015 - Jul 2017

- Spearheaded the implementation of an electronic ticketing system to track available seats for 1,500 attendees across 6 performances to a free, annual event and secured over \$10K in sponsorships from local businesses.
- Recruited and led multiple diverse volunteer teams with 100+ direct reports for weekly services and monthly events.
- Researched and launched a texting app for guest experience that increased retention and engagement by 50%.
- Overhauled UX/UI for the website and weekly newsletter which increased open & click rates and ease of use.

## Education
